WORK EXPERIENCE

Brown & Brown Insurance – IT Solutions Specialist Internship (May 30th, 2023 – August 10th, 2023)

- Automated the creation of Azure DevOps projects using Smartsheet data, resulting in 90% project speed efficiency, lower labor hours, and increased project manager KPI's.
- Created Azure DevOps environments for User Acceptance teams and enhanced the process by making reusable templates to decrease startup times of projects, decrease risk, and increasing usability.

Embry-Riddle Aeronautical University – Junior Developer (March 31st, 2021 – July 1st, 2024)

- Aided with UX/UI design of worldwide college courses for a global audience. Displayed my knowledge of Adobe XD, HTML code, and user experience/user interface.
- Aided in projects to create new case studies and reports requested directly from Embry-Riddle Aeronautical University. Developed skills in data entry and analytics while designing and deploying tools for data gathering.

Web-Developer and Graphic Artist (2018 - Present)

- Serviced client requests for logos, product design and art increasing business.
- Serviced client requests for UX/UI design and websites. Implemented creative design using Adobe XD, Wix, Shopify and more to create appealing UX/UI design and increase sale.

Knighted Gaming - Gaming Associate (February 12th, 2023 - Present)

- Gaming Associates sit at live card table games, verify payouts, calculate bonuses, and regulate the rules of different poker games.
- Aided with the construction of a training application for new hires called the Knighted Poker Trainer.
